

Hello Parent/Guardian,

Our school is taking part in a trust-wide Sumdog maths contest. Here's everything you need to know to help your child take part and enjoy the contest.

### What is Sumdog?

Sumdog is an online learning tool which provides personalised maths and spelling practice that children love. It adapts questions to each child, using engaging games to build their confidence, and it's been shown to accelerate progress.

### Making learning fun

Sumdog helps children to practise regularly, combining questions from the curriculum with fun games. The games are child-friendly and highly engaging – children don't even realise they're learning!

### Keeping your child safe

Sumdog follows best practices in GDPR and data security, and does not support communication between pupils, so your child and their data is completely safe.

### How does the contest work?

Children answer questions as accurately as they can during the contest week. The class with the highest average number of correct answers wins! There's a limit of 1,000 questions which is about one hour's worth of play across the week and we encourage children to log in and do a little bit each day.

## How to get started

For your child to have the best experience using Sumdog at home, please download our free app for your smartphone or tablet.

Alternatively, they can also login at [www.sumdog.com](http://www.sumdog.com) on a laptop or computer.
